BLUE RECYCLE BINS NOW ACCEPT ALL PLASTICS #1-7

What do you mean Plastic #1-7?

If you've ever turned a plastic 'anything' over to see if there's a little recycle symbol on the container, chances are you've seen a little number in the middle of the symbol. We'll start out by saying that there are different kinds of plastic. Although it's ultimately all made from petroleum, different additives are used to give plastic different properties. This little number is indicative of the type of plastic used and therefore, what process it must undergo to be recycled.

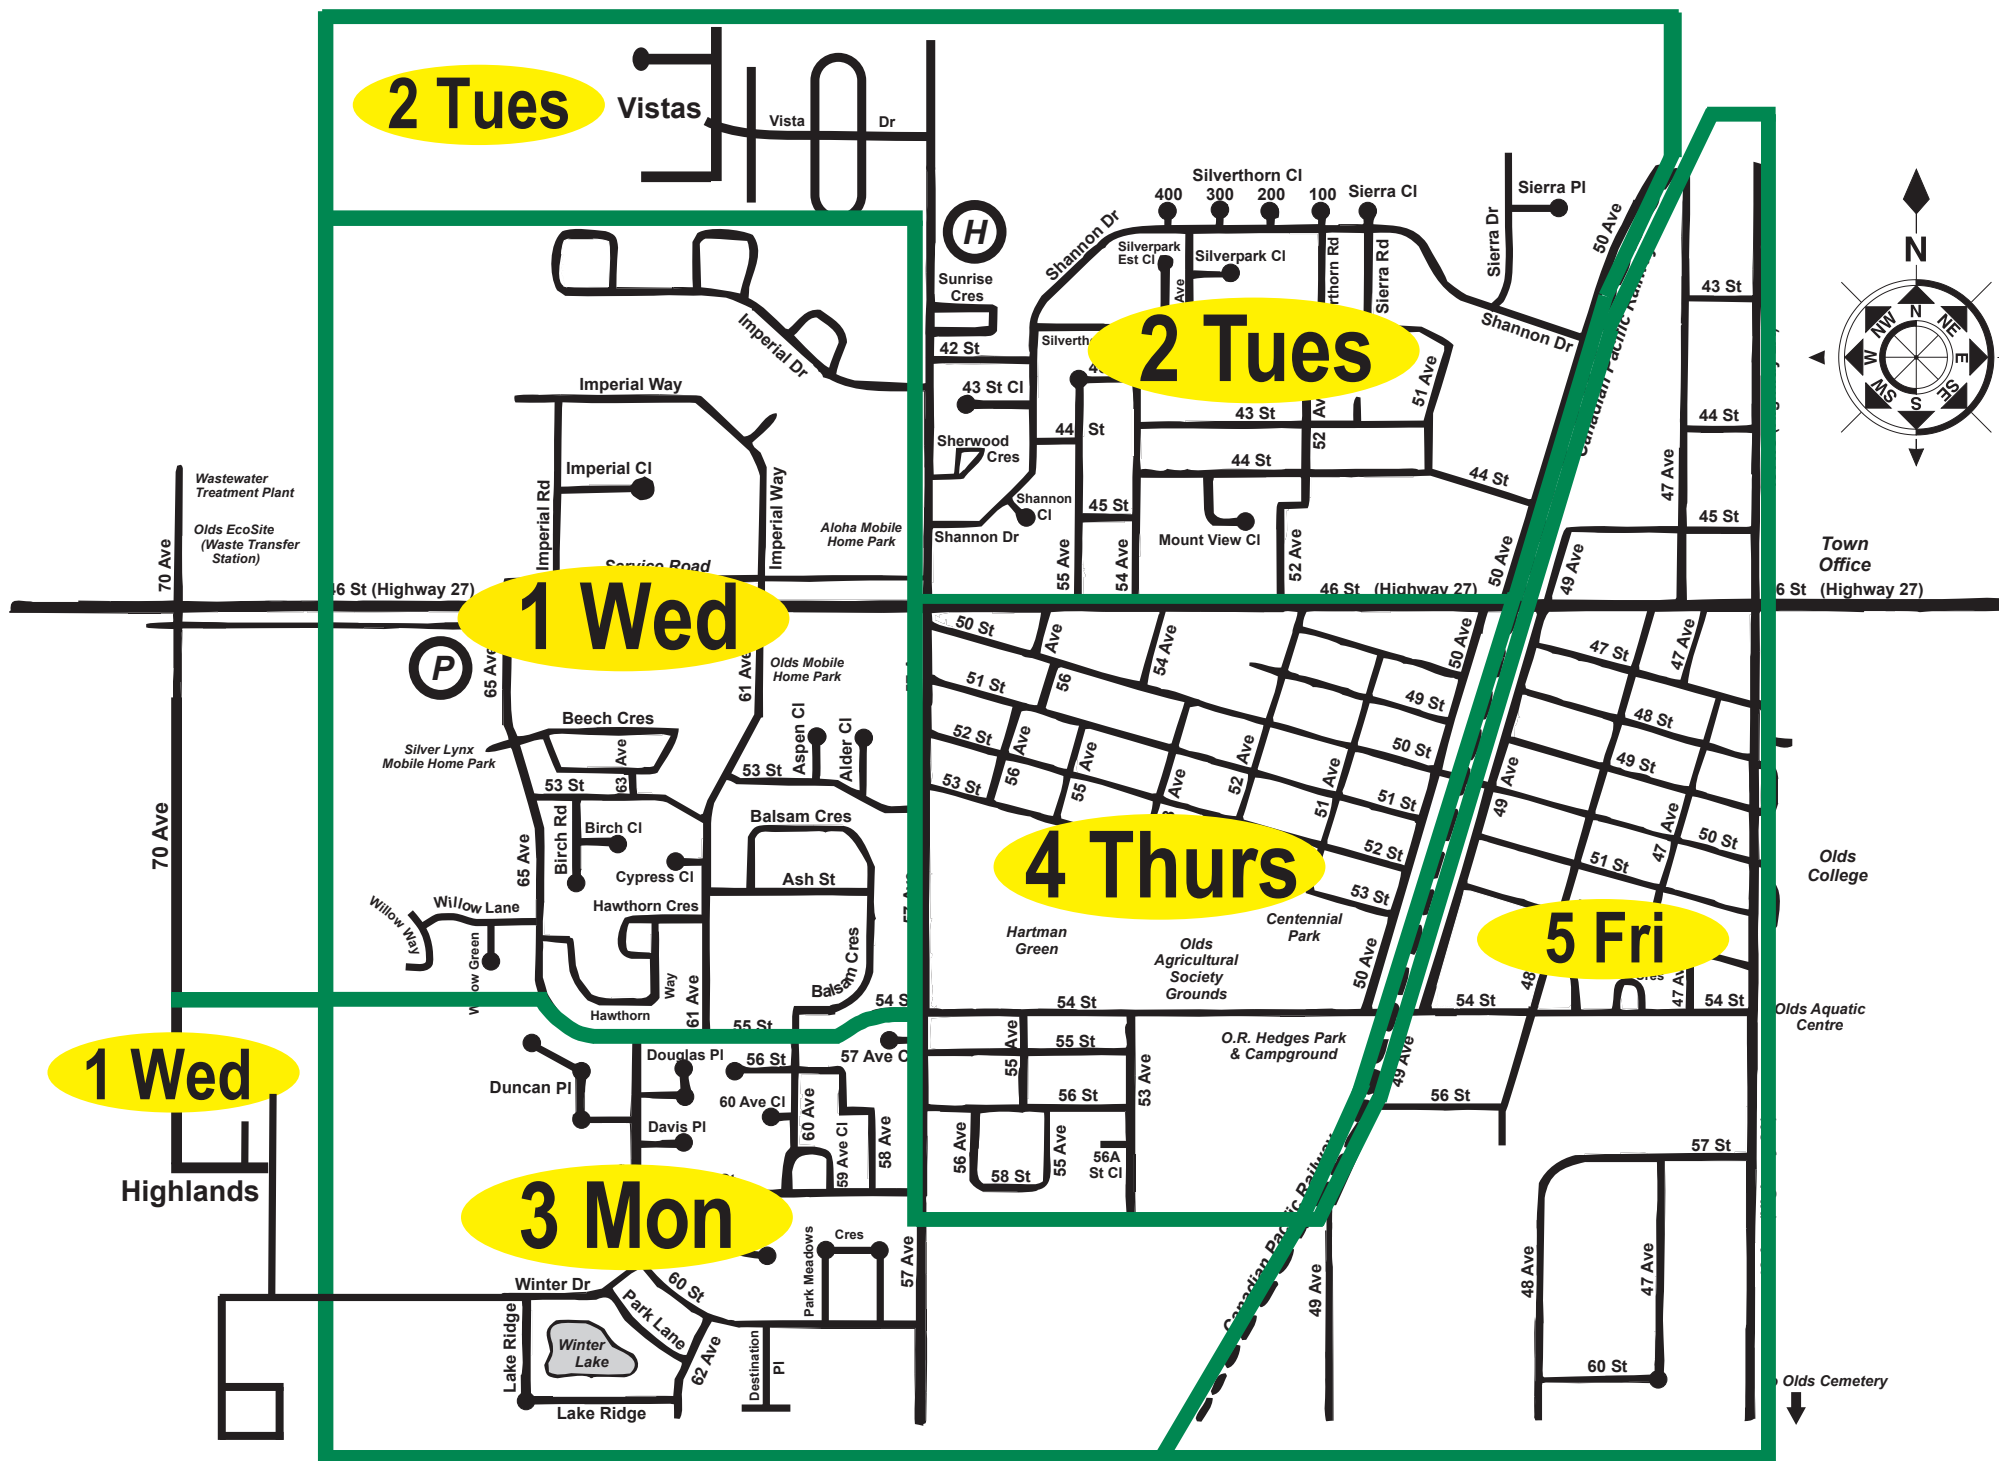

ACCEPTABLE BLUE BIN ITEMS INCLUDE:

- ALL Plastics #1-7
- Cardboard
- Boxboard
- Mixed Paper
- Metal Food Cans
- Glass
- Aluminum Foil

Please be respectful and rinse out all food residue from your containers!
