Subject: Mountain View County Deploys Fire Platoon to Assist with Waterton Fire

Mountain View County Region Deploys 1st Platoon to Waterton

The Mountain View County region (Carstairs, Didsbury, Olds) has deployed a contingent of 12 volunteer fire fighters to the Waterton Lake Fire. Fire fighters departed early Tuesday, September 12, 2017.

All fire departments in the area are working together to ensure a full platoon will be able to provide aid as long as Alberta Emergency Management requires assistance.

Area fire departments had been on notice to provide a list of available equipment to deploy. A pickup truck, pumper truck and aerial truck have been assigned to aid in the efforts.

County wide coverage has been assessed and deemed to be adequate for this deployment. Area residents are to be ensured that sufficient coverage is in place throughout the Mountain View County region.
