

**Maximum Performance (MaP) of Toilet Fixtures - Flushometer Valve/Bowl Combinations**

IMPORTANT NOTE: The evaluation and MaP measurement of the flushometer bowl/valve combinations shown below was performed using the existing MaP protocol designed for residential applications. A more rigorous MaP protocol for non-residential (public restroom) applications is under development. Note that the results may change if the combinations shown below are re-tested using the new commercial protocol.

Updated April 26, 2010
