

MOUNTAIN VIEW POWER – Let Your Power Bill Do More

When you choose Mountain View Power for electricity or natural gas, you are doing more than paying a utility bill.

MVP profits stay local and help fund community projects and initiatives that make Olds a better place to live.

MVP Community Grant Opens October 2

Have a great idea for the community? The next Mountain View Power Community Grant intake opens October 2, with an updated approach that puts greater focus on projects with strong community impact.

The updated criteria place greater value on collaboration, community contributions and projects that create benefits beyond the initial funding. The goal is to help strong ideas rise to the top and make the best use of the funds available.

What Else Could MVP Power?

The Town's Community Sponsorship Program is creating new ways for businesses and organizations to support the facilities, spaces and programs residents use every day.

MVP is exploring opportunities to take part.

[Stay tuned to hear more about some exciting new changes.](#)

Help Decide What MVP Powers Next

MVP is looking for community members to join the volunteer committee that reviews Community Grant applications and helps recommend how funding should be invested.

We're looking for Mountain View Power customers who care about the community, can consider different points of view and want to help good ideas move forward. No grant experience is needed.

Join the committee and help shape where MVP funding goes next.

Powering Art in Our Community

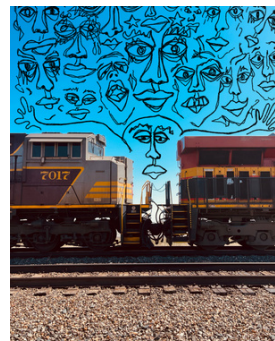

MVP investment takes many forms.

The Public Art Collective of Olds – PACO - is a community-led, Town-supported program funded through Mountain View Power profits. Its work helps bring art into public spaces and creates more opportunities for local artists.

The recent update at Cornerstone Art Commons at 46 Street and 65 Avenue displays local artwork selected through a community art contest and the Olds Sportsplex received two new pieces to showcase the creativity in our community.
