

ADDENDUM 1

RFP Regional Recreation Strategy Phase 2

1. Question:

The Olds Sportsplex Facility Lifecycle Assessment and Feasibility Study presentation references Scenarios #2 and #3. Can you please clarify what Scenario #1 entailed?

Answer:

Scenario #1 is the "Status Quo / Maintain as-is" scenario; the bare minimum required to keep this facility operational. Other scenarios are compared against scenario 1. Scenario 2, expansion, is what the Town seeks to gather more information on through this Phase 2 Project.

2. Question:

On page 12 of the RFP under Project Deliverables, a "Refined business case" is listed. Is there an existing business case that will be built upon or are you referring to the existing Master Plan?

Answer:

There is no existing business case. The term refined was only meant to signify 'final' and 'of quality'. The 2021 Regional Master Plan is the only document that speaks to a field house as a future potential asset.
