For Immediate Release

Update: Grey Water Restrictions Lifted

June 16, 2022 - For Immediate Release

The Town of Olds would like to express a sincere thank you to everyone for their diligence and cooperation in reducing grey water usage, and the South Red Deer Regional Waste Water Commission (SRDWWC) for their assistance during the recent rain storm event.

We are happy to report all infrastructure within the Town of Olds fared well and no sewer issues or back ups occurred.

The Town of Olds waste water pond maintained its capacity and the other area of concern was the Miller pond located off 57 Avenue in the south area of town. The Miller pond is currently being pumped down to a lower level and will continue for a couple of days due to the water levels in the fields to the south.

The Town of Olds Operations Department will continually monitor all areas of concern and continue to update residents if required.
